

Werribee Primary School Parent/Guardian Payment Policy

Background

This policy is governed by the *Education and Training Reform Act 2006* (the Act) which provides for free instruction in the standard curriculum program to all students in government schools.

Free instruction is the teaching staff, administration and the provision of facilities in connection with the instruction of the standard curriculum program, including reasonable adjustments for students with disabilities. The standard curriculum program refers to the eight key learning areas – English, Mathematics, Sciences, Humanities and Social Sciences, the Arts, Languages, Health and Physical Education, and Technologies, and four capability areas – Critical and Creative thinking, Intercultural, Ethical and Personal and Social.

The Department allocates funding to schools through the Student Resource Package (SRP). This includes funding for the standard curriculum program, including associated administration, equipment, facilities and operational costs. The Act also empowers school councils to charge parents for items that the school provides or makes available to the student. The items may be categorised as either **Essential Student Learning Items** or **Optional Items**. School council may also ask parents to make a voluntary financial contribution to the school for a stated purpose.

Purpose

To ensure school-level parent payment policies and processes are compliant with the DET's policy requirements.

To ensure Werribee Primary School complies with the legislative requirements of the *Education and Training Reform Act 2006*.

Parent payment categories

Schools can request payments from parents under three categories: Essential Student Learning Items, Optional Items or Voluntary Financial Contributions.

Each school determines whether an item, activity or service is an Essential Student Learning Item or an Optional Item within the context of their distinct learning and teaching program.

Essential student learning items

These are items, activities or services that the school deems **essential** to student learning in the standard curriculum. Where practical and appropriate, parents may choose to purchase items through the school or provide their own. Examples are:

- items that the student takes temporary or permanent possession of such as text books, student stationery, book bags, Picture Exchange Communication Systems (PECS)
- materials for learning and teaching where the student consumes or takes possession of the finished articles (e.g. technology projects, workbooks, photography)
- school uniform (where applicable)
- activities associated with instruction that all students are expected to attend, such as costs associated with excursions and work placements.

Note: If parents choose to provide equivalent materials themselves, this must be done in consultation with the school, and items should meet the specifications provided by the school. However, there are some items (e.g. food provisions for home economics) that, due to their nature, can only be provided by the school.

Optional items

These are items or services that are **optional** and are offered in addition to the standard curriculum. Students may access these on a user pays basis. These items include:

- activities the student purchases (e.g. fees for extra-curricular programs or activities offered in addition to the standard curriculum such as instrumental music tuition; fees for guest speakers; optional camps and excursions; entry fees to school-based performances, productions and events)
- items the student purchases or hires (e.g. school magazines; class photos; formals/graduation functions; materials for extracurricular activities; student accident insurance)
- items and materials that are more expensive than required to meet the standard curriculum (e.g. use of silver in metal work instead of copper)

Voluntary financial contributions

Parents, or anyone else, can be invited to make a **voluntary** contribution or donation to the school for the following purposes:

- contributions for a specific purpose identified by the school (e.g. equipment, materials or services) in addition to those funded through the SRP. This may include additional computers or student-related services. These contributions are NOT tax deductible.
- general voluntary financial contributions or donations to the school. These contributions or donations are NOT tax deductible.

Principles

Werribee Primary School will adhere to the following principles:

- **Educational value:** Student learning, aspirations and wellbeing are paramount when schools determine their parent payments practices.
- **Access, equity and inclusion:** All students have access to the standard curriculum program and participation of all students to the full school program is facilitated.
- **Affordability:** Cost to parents is kept to a minimum and is affordable for most families at the school.
- **Engagement and Support:** Early identification and engagement strategies by the school ensure parents are well informed of the payment options and supports available for those experiencing hardship.
- **Respect and Confidentiality:** Parents and students experiencing hardship are treated with respect, dignity, sensitivity and without judgement and the identity and personal information of all parents and students are kept confidential in respect to parent payments.
- **Transparency and Accountability:** School parent payment practices are well communicated, clear and transparent and their impact on student programs and families are reviewed by school councils.

Access to education

Students are not to be denied access to the standard curriculum program, refused instruction or disadvantaged on the basis of payments not being made for education items or services.

Where a child cannot participate in an essential activity or provide an essential student learning item, the school must consider the financial hardship circumstances of the student or make alternative arrangements that provides for the required knowledge and skills to be learned. This ensures that all children and young people learn the required content necessary to meet the achievement standards in the standard curriculum program.

Implementation

This policy will ensure that:

- items students consume or take possession of are accurately costed
- payment requests are broadly itemised within the appropriate category
- information on payment options is available, accessible and easily understood to all parents so that they know what to expect and what supports they can access
- parents are provided with reasonable notice of any other payment requests that arise during the school year-ensuring parents have a clear understanding of the full financial contribution being sought
- the status and details of any financial arrangements are kept confidential and only shared with relevant school personnel
- parents experiencing hardship are not pursued for outstanding school fees from one year to the next
- use of debt collectors to obtain outstanding school funds owed to the school from parents is not permitted
- there will be only one reminder notice to parents for voluntary financial contributions per year
- Invoices/statements for unpaid essential or optional items accepted by parents are not generated more than monthly
- the school does not withhold access to enrolment or advancement to the next year level as a condition of payment for any of the three categories
- payment may be requested but not required prior to the commencement of the year in which the materials and services are to be used
- Receipts will be issued to parents immediately upon making payment.

Understanding Parent Payment Categories

Schools What does the legislation say?

The Education and Training Reform Act (2006) provides for free instruction in the standard curriculum program to all students in government schools. The Act also empowers school councils to charge fees to parents for goods and services provided by the school to a child.

In the Act, a 'Parent' includes a guardian and every person who has parental responsibility for a child including parental responsibility under the Commonwealth Family Law Act 1975 and any person with whom a child normally or regularly resides.

What do schools pay for as part of 'free instruction'?

Free instruction is the teaching staff, administration and the provision of facilities in connection with the instruction of the standard curriculum program, including reasonable adjustments for students with disabilities.

The standard curriculum for Years F-10 means implementation of the Victorian Curriculum F-10.

The standard curriculum for senior secondary schools means a program that enables a student to be awarded a VCE or VCAL qualification.

What principles govern parent payment practice?

Educational Value | Access, Equity & Inclusion | Affordability

Engagement & Support | Respect & Confidentiality | Transparency & Accountability

Parents What may parents be asked to pay for?

Schools can request payment for Essential Student Learning Items

These are items, activities or services that the school deems **essential** to student learning of the standard curriculum.

- e.g.
 - excursions
 - incursions
 - school sports
 - work placements

Parents can be asked to pay for items, activities and services in the three Parent Payment Categories:

Essential Student Learning Items, Optional Items and Voluntary Financial Contributions.

Schools determine how items, activities and services are classified within these categories based on the learning and teaching program of their school.

Schools can request payment for Optional Items

These are items, activities or services that are **optional** and are offered in addition to the standard curriculum.

Students may access these on a user-pays basis.

These may be either:

Items the student purchases or hires

- e.g.
 - school magazines, class photos
 - functions, formals, graduation dinners
 - materials for extra curricular programs
 - student accident insurance

Activities the student purchases

- e.g.
