Policy

1. School profile

Werribee Primary School, originally established in 1855, has provided education to the local community from its present site since 1919. It is situated on a compact site, in close proximity to Werribee's retail and commercial centre and approximately 35km south west of Melbourne. The school is in the South West Victorian Region of the Department of Education and Training (DET) and the Wyndham Network of schools.

The school's physical spaces are attractive and well maintained and provide safe and supportive learning environments including; administration, classrooms, gymnasium, multipurpose spaces and a well-resourced library. The grounds encompass attractive gardens, play spaces, synthetic grass games areas and play equipment. A well-attended before and after school care program operates during school terms and is run by Camp Australia.

The school is proud of its community involvement as parents provide valuable assistance to the school in the classroom, excursions, and whole school events. The School Council is active in supporting many improvement initiatives. The Werribee Friends committee works towards fundraising for the school needs and organising social activities. With the declining volunteer availability over the last few years, strengthening community engagement remains a focus area.

Werribee Primary School has a committed and professional staff with a balanced mixture of age and experience. Teachers plan and work in Professional Learning Communities in a collaborative environment with a collective responsibility for all students. The school offers five specialist curriculum areas being: Visual Art, Physical Education, Digital Technologies, Music and Spanish. The school's curriculum framework is based on the Victorian Curriculum 2.0. The High Reliability Schools Framework has been the driver for school reform with Classroom Instruction that Works implemented as our whole school instructional model. Strong links and implementation of DET's, Framework for Improving Student Outcomes (FISO 2.0) enhance our school improvement journey and planning. The school has embedded the use of data and evidence to ensure growth for all students by the continued development of a guaranteed and viable, differentiated curriculum, targeted at student point of need.

Information, Communication Technology (ICT) is used to support teaching and learning with notebook computers, iPads and large flat screen TVs in all teaching spaces. The school's ICT network, servers and Wi-Fi connectivity has been extensively resourced to ensure a robust platform for our future ICT requirements. We have a 1:1 BYO iPad Program in the Year 4, 5 & 6 area. Extensive resourcing has occurred over the previous years to enable a rigorous Digital Technologies program for example; BeeBots, OzoBots, Lego WeDo and EV3 Robotics.

Students are offered a range of extracurricular activities to support their learning, engagement and wellbeing. The school provides a breakfast program and many activities during the lunch break. We value the opportunity to develop student leaders and student voice and agency across the school and this is achieved through the Student Leadership Program, Class Captains, Student Voice Team and Media Crew. The School Wide Positive Behaviours System, Restorative Practices and the Berry Street Education Model are established in the school to support students in their engagement and wellbeing, *which also closely aligns to the Positive Classroom Management Strategies (PCMS) framework recently develop by DET.*
